

We help schools manage their healthcare needs

Schools can now outsource their entire health & wellness programs management to Orange Cross.

Orange Cross services cover 3 critical areas

1. **Medical Room Management** [including setting up / upgrading, if required]
2. **Annual Health Check-ups** [with online reports with trend lines and tools]
3. **Health Awareness Programs** [for parents, teachers & staff and students]

Progressive school managements understand that overall good health has a positive impact on academic as well as physical performance in school. Parents too recognize that a nurse is not adequate for handling medical emergencies, and hence are willing to pay for improved health & wellness programs.

About Orange Cross:

Orange Cross is a healthcare services management company co-founded by Melvin Barreto and Prajakt Raut. Orange Cross was selected as one of the hottest start-ups by Business World. The co-founders run the company with a team of competent professionals and subject matter experts.

The company is backed by industry stalwarts like Sridar Iyengar [ex Chairman of KPMG, India and currently on the Board of ICICI Bank, Infosys, Rediff, etc.], Shantanu Prakash [Founder & MD of Educomp Solutions], Ashutosh Garg [Founder & MD of Guardian Pharmacy Chain], Scott Bayman [Ex President & CEO of GE India], and Pravin Gandhi [Respected name in the IT industry and founder of Seed Fund].
